

How much does a CALB battery cost?

When you add in the Amazon fees, shipping, and tax...it's not much markup. Just a convenient way to get some genuine CALB batteries :) This 180 Ah battery should be selling for \$1.20 per Ah at the most that is with a .10 per Ah markup Although these batteries are great (if this really is a China Aviation Lithium Battery) this is a complete ripoff.

Who makes CALB lithium ion batteries?

CALB is known for producing world class premium battery cells used in many leading brands such as Victron. Where cost efficiency, safety and reliability are paramount, CALB lithium ion batteries enter the picture. We are your trusted suppliers of CALB batteries Australia wide!

Are CALB batteries any good?

These CALBs are excellent batteries, at this price though you should be getting a battery at about 300ah, not 180ah. And yes I know CALB doesn't sell these in a 300ah size, I am just making the point of poor value. Shame on whomever is trying to sell these batteries at such a high price. Woot!

What is the production capacity of CALB battery?

At present, our planned annual production capacity is 200GWh+, being the world's leading power battery manufacturer and strategic supplier of global excellent automobile companies. CALB is known for producing world class premium battery cells used in many leading brands such as Victron.

Where is CALB battery made?

CALB was founded in Luoyang, Henan, and later moved its headquarters to Changzhou, Jiangsu. With its military background, CALB has rapidly grown into one of the most important lithium-ion battery manufacturers in China and even the world with its strong technical strength and efficient business strategy.

Who owns CALB EV battery company?
