

# Can you charge electric car at tesla station

Where can I charge a non-Tesla Electric Vehicle?

Most useful for Electric Vehicle (EV) drivers and owners will likely be Tesla destination chargers, most commonly found at hotels, parks, and shopping centers. These chargers are primarily designed for Tesla vehicles and it's unlikely they will allow for non-Tesla charging unless Tesla goes around and updates those chargers.

Can a non-Tesla electric vehicle charge at a Tesla Supercharger station?

Non-Tesla electric vehicles can charge at some Tesla Supercharger stations with the use of an adaptor such as the Magic Dock. You might think you need a Tesla to charge your electric vehicle at a Tesla station, but that is not the case.

Can I use Tesla Chargers if my EV isn't a Tesla?

It's possible to use Tesla chargers if your EV isn't a Tesla. However, as InsideEVs points out, there are limitations. It's important to know that only Teslas can use the Tesla high-speed superchargers. No exceptions. There are currently no available adapters that can enable you to use one of these on a non-Tesla vehicle.

How do I Charge my Tesla If I don't have a Tesla?

If you own a Tesla, you simply reverse into a bay, plug the connector into the car and the charging session will start automatically because the charger will be able to detect and figure the car out. However, if you don't have a Tesla, things are a little more complicated. Plug the connector into the car.

How do I control charging at a Tesla charging station?

To control charging at a Tesla charging station, you'll need to download the Tesla app. Currently, non-Tesla EVs can access a portion of Tesla's Supercharging network if they're compatible, meaning they meet certain technical criteria:
