

How much cap warfare resistance does a 4 cap battery have?

Now this is where my cap warfare question comes into play. According to Stacking penalties - EVE University Wiki my 4 Cap batteries on this fit should total to something over 73 percent of Capacitor Warfare Resistance.

Does Eve University give a bonus to capacitor capacity?

Mindflood Booster gives a bonus to capacitor capacity. Antipharmakon Aeolis gives a bonus to capacitor capacity. EVE University members can get full reimbursement for most of these skills, among many others, through the University skillbook program. Capacitor Management - 5% bonus to capacitor capacity per skill level.

How do you simulate a drifter battleship?

To simulate the drifter battleship's 200GJ/s pressure, first create a set of adversaries that inflict 200GJ/s capacitor pressure. In this case, a Tempest with 8x Heavy Neut would do the trick, but we can also assemble a composition of two Armageddons each with 4x Heavy Neut:

Does the prophecy have a cap warfare module?

The Prophecy can be effectively fitted with capacitor warfare modules in its high slots. It has a good tank, capacitor and with good drone skills a reasonable amount of dps. Brawling Hurricanes are often flown with a utility cap warfare module. The Dominix is often used as a cap warfare ship.

Does Eve have a Powergrid?

Every ship in EVE has an internal generator, which provides the "powergrid" you see in the fitting window. Modules fitted onto the ship connect to the powergrid and reserve a portion of the generator output for themselves, reducing the remaining powergrid when fitted.

Can you use Ewar with a cap warfare module?

Don't mix cap warfare modules with long range modules such as ewar. The Punisher is often flown with a utility cap warfare module. Many solo fits for frigates use a small cap warfare module. Except for the Dragoon (see above), destroyers are not usually used for cap warfare. The Arbitrator is usually flown with cap warfare modules.
