

How do I charge an electric car in Kent?

There are many ways you can charge an electric vehicle (EV) in Kent. You can find public chargers in: petrol stations. Most new electric cars have a range of at least 200 miles, so often, people do not need to charge at home. View public charging points in ZapMap, or rent charging time from homeowners with a charger using a service like Co-Charger.

Where can I find a map of Public EV chargers in Kent?

The interactive map can be found on the Let's Talk Kent website. Some district councils place public EV chargers on-street using their own powers. We are looking at the options of a wider roll out of public EV chargers designed for those without access to off-street parking.

How many EV chargers are there in Kent?

We're working with other councils in Kent to install over 600 public chargers in their car parks and are beginning to install up to 10,000 on-street EV chargers. Hopefully this will help you if you own an EV and do not have off-road parking.

Do I need planning permission to install a car charger?

For faster charging, you could consider installing a dedicated vehicle charger. The UK Government's Electric Vehicle Homecharge Grant helps some households with up to 75% of the installation costs. If your charger faces onto the street and is installed within 2 metres of the road or pavement, you may need planning permission to install it.

Who are CW charging?

Situated in Maidstone, CW Charging serves Sevenoaks, Tonbridge and the surrounding areas. We assist car owners and fleet managers across Kent, ensuring all electric car charging point installations meet an exacting standard. As part of Complete Wiring Solutions, we bring over 50 years of shared industry experience to electrical work.

Should I install a private car charger?

Speak to your district council if you are unsure. If you have private parking that is separated from your home, for example a garage or parking bay within a residential parking area, you may think about installing a private charger. The UK Government's Electric Vehicle Homecharge Grant helps some households with up to 75% of the installation costs.
