

Casio edifice solar power quartz men s watch

What is a Casio Edifice watch?

A Casio Edifice watch is powered by a Tough Solar quartz movement. This technology, also used by Citizen in their Eco-Drive watches, is accurate and reliable, and can stay functioning after months in the dark.

What are edifice's solar powered watches?

Harness the limitless energy of light with EDIFICE's Solar Powered Watches, featuring CASIO's cutting-edge Tough Solar technology.

Which Casio Edifice men's watch is best?

The Casio EF-539D-1AVEF is one of the best Casio Edifice men's watches, featuring a stop watch timer, scratch resistant hard mineral glass, chronograph timing, and a water resistance to 100 metres.

How do edifice solar watches work?

EDIFICE Solar watches are powered by light energy. The solar fields "catch" the light and transform it into energy. The CASIO Tough Solar System is so advanced that even the weakest light sources are sufficient to operate the watches. The solar cells are so small and inconspicuous that they can be integrated easily into every watch face design.

What is the edifice mens wristwatch by Casio made of?

The Edifice Men's Wristwatch by Casio, sold on Amazon.co.uk, has a case diameter of 49 mm. The case and bracelet are made of stainless steel. The bracelet is closed by a deployment clasp. This watch has a date display, a neo-display, and a stop function, and the water resistance is 10 bar.

Why do Casio watches use solar cells?

The solar cells are so small and inconspicuous that they can be integrated easily into every watch face design. CASIO's solar field can also be manufactured in any color and design. An accumulator in EDIFICE solar watches saves "superfluous" energy and releases it when the watch is in darkness.
