

How much does a Casio Edifice multicolor cost?

The Casio Edifice Racing Multicolor is a watch that makes you realize just how much capability you can get for just \$250. Yes, it's quartz, but consider all it can do. It's solar-powered, can send your stopwatch timings to your phone, show world times, help you find your phone, and record a time-and-place in the app just by pushing a button.

What is the Casio Edifice eqs-930bl-2avudf?

The Casio Edifice EQS-930BL-2AVUDF is one of 4 new solar powered quartz chronographs released mid this year. The new collection is equipped with a carbon fibre dial, and with ion-plated bezel in four colour options - silver, black, grey and blue. This is our hands-on review of the latter.

Does Casio make Edifice watches?

Casio has been making watches under the 'Edifice' banner for some time now. When I think of Edifice, the first thing that springs to mind is their motorsport associations. Of course, they produce a variety of other Edifice styles too, but the racing team tie-ins help this subsidiary stand out.

What is the Casio Edifice series?

The Casio Edifice series takes its inspiration from racing, and in particular motor racing. We have covered several watches in this collection, all with racing themes: The case is constructed in stainless steel, with a stainless steel screw down back, and a stainless steel fixed bezel.

How do edifice solar watches work?

EDIFICE Solar watches are powered by light energy. The solar fields "catch" the light and transform it into energy. The CASIO Tough Solar System is so advanced that even the weakest light sources are sufficient to operate the watches. The solar cells are so small and inconspicuous that they can be integrated easily into every watch face design.

Should you buy a Casio Edifice?

If you're after a feature-packed low-cost chronograph, you can't go wrong with this Casio Edifice; or most other Edifice watches for that matter, which all seem to boast similar specifications and finishing. Keep size in your mind when shopping, as Casio's sizing has increased for these modern designs.
