

Why should you buy a G-Shock solar powered watch?

G-SHOCK's Tough Solar technology converts light into power to keep your watch ticking. It's environmentally friendly and eliminates the need for battery replacements. Plus, G-SHOCK Solar Powered watches have a power reserve of up to 2 years, making them a hassle-free timekeeping solution.

How much sunlight does a Casio / G-Shock watch use?

With CASIO /G-SHOCK watches, just 8 minutes of direct sunlight gives you 1 day's worth of power - any light source - artificial light such as lightbulbs or natural sunlight. Solar powered watches have a power reserve of up to TWO YEARS*(*times may vary, please refer to your watches manual).

Does G-Shock use solar power?

G-SHOCK uses solar power to keep your timepiece charged all day long. Shop our collection of solar-powered digital watches and soak up the sun with the digital timepiece that will never stop ticking. Choose G-SHOCK for the most durable digital and analog-digital watches in the industry.

What is Casio Tough Solar System?

The CASIO Tough Solar System is so advanced that even the weakest light sources are sufficient to operate the watches. The solar cells are so small and inconspicuous that they can be integrated easily into every watch face design. CASIO's solar field can also be manufactured in any color and design.

What is a Casio solar watch?

CASIO's solar field can also be manufactured in any color and design. An accumulator in G-SHOCK solar watches saves "superfluous" energy and releases it when the watch is in darkness. G-SHOCK Solar watches are always equipped with an accumulator. The accumulator is charged automatically and does not require manual activation.
