

Which power battery manufacturer has the largest market share in China?

Among the top 15 power battery manufacturers in China,CATLnot only claimed the largest market share with 28.7 GWh of installed capacity in November but also the largest cumulative market share with 211.72 GWh of installed capacity from January to November.

Is CATL the world's largest battery maker?

Also known as the world's largest power battery maker,CATL had a 37.6 percent global share in the industry between January and July. In July,CATL unveiled its commercial vehicle battery brand,Tectrans,along with two L-series commercial vehicle batteries for the logistics and distribution industry.

What was the power battery market share in China in 2024?

CATL's total installed capacity in 2024 was 256.01 GWh while BYD's was 135.02 GWh. It is worth noting that the installed capacity of lithium iron phosphate batteries for CATL and BYD each exceeded 100 GWh, reaching 151.63 GWh and 134.84 GWh, respectively. The power battery market share in China in 2024 is as follows:

Is CATL launching a commercial vehicle battery?

After dominating the passenger car battery market,CATL has intensified its efforts in the commercial vehicle battery market. The company claims that the battery will have an energy density of 175 Wh/kg,setting a new benchmark in the electric bus industry. Tectrans,the commercial vehicle brand of the company,was launched in July.

Is CATL a leader in solid-state battery technology?

Interestingly,CATL is not the only playerin the field of solid-state battery technology. Major automotive and battery companies,such as BYD,Toyota,and Samsung,are also aggressively pushing toward developing all-solid-state batteries.

How much energy does a CATL battery produce?

According to the report,CATL's current prototypes are impressive. They offer an energy density of 500 Wh/kg. To put that in perspective,this is an improvement of over 40% compared to existing lithium-ion batteries,which typically max out at around 350 Wh/kg.

The United States" Inflation Reduction Act is pushing U.S. automakers to move away from CATL batteries. In 2024, drivers purchasing new EVs cannot take advantage of the \$7,500 tax credit if the EV has batteries ...

After CATL presented its Evogo battery swap solution in 2022 and began setting up the first locations, the company is now setting specific targets for the expansion of its battery swapping network in China. CATL is now aiming ...

CATL announces 2nd-gen sodium-ion EV battery that works even at -40°C. China's largest battery maker is developing a new sodium-ion battery that can withstand extreme temperatures.

: China's CATL, the largest lithium cell manufacturer in the world, has announced its second-generation sodium battery that can operate in temperatures as low as ...

China's Contemporary Amperex Technology (CATL), the world's largest producer of batteries for electric vehicles and a supplier for Tesla, has applied for a listing in Hong Kong, ...

Specifically, the installed capacity of ternary batteries was 14.3 GWh, accounting for 19% of the total installed capacity, a year-on-year decrease of 13.4%; and the installed capacity of lithium iron phosphate batteries was 61 ...

The automaker delivered 2.928 million vehicles in China in 2024, down 10 percent year-on-year. Volkswagen and CATL previously had a partnership. In June 2021, CATL said it received certification from ...

Both parties will jointly drive the formulation and adoption of national standards for battery swapping technology in China, further enhancing battery compatibility across various ...

China's Contemporary Amperex Technology Co., Limited (CATL), a global leader in lithium-ion battery development and manufacturing, is significantly escalating its investment in...

CATL has launched the Tianxing B-series battery, an electric bus battery with an impressive 15-year lifespan and over 932,000 miles range.

CATL's battery recycling unit, Pubang, can recycle 99.3% of Nickel, Cobalt, Manganese, and 90% of Lithium from used batteries. ... (KBA) provides exposure to CATL and China's A-share market ...

CATL unveiled two new standardized battery packs designed for efficient swapping, with a long-term goal of setting up 30,000 stations in China.

On June 18, CATL, BAIC Group, Beijing Energy Holding Co., Ltd. and Xiaomi officially kicked off construction of their joint battery plant in Beijing, China. Following the standards of Lighthouse ...

On December 18, 2024, CATL unveiled two standardized battery models, #20 and #25, at the Choco-Swap ecosystem conference held in the coastal city of Xiamen. Jointly launched by CATL in collaboration with nearly 100 partners, ...

The addition of Contemporary Amperex Technology Co., Limited (CATL) to a Chinese military-linked entities list has thrust Tesla's reliance on the Chinese battery giant into ...

China Petroleum and Chemical Corp (Sinopec) and Contemporary Amperex Technology Co Ltd (CATL), a leading battery maker, have signed a framework agreement on ...

Contemporary Amperex Technology Co., Ltd. (CATL), China's leading battery maker, has unveiled two types of standard swappable batteries and jointly launched such ...

On October 24, 2024, CATL launched Freevoy Super Hybrid Battery, the world's first hybrid vehicle battery to achieve a pure electric range of over 400 kilometers and 4C superfast charging, heralding a new era for high-capacity EREV and ...

After completion, it will start large-scale manufacturing of high-quality electric vehicle batteries for BAIC, Xiaomi, LI, and other auto enterprises in Beijing-Tianjin-Hebei ...

CATL made its debut at the Marintec ChinaMarintec China 2023 was held at the Shanghai New International Expo Center from December 5 to 8, 2023. During the event, CATL presented a variety of electric vessel battery ...
