

Is CATL a good EV battery company?

In June 2018, the company went public on the Shenzhen Stock Exchange with stock code 300750. In the year 2023, CATL's EV battery consumption volume has ranked No.1 in the world for seven consecutive years, and it has ranked first in the market share of global energy storage battery shipment for three straight years.

Is CATL a good battery supplier?

It maintains that advantage by being a top battery supplier for major automakers, including Tesla, Volkswagen, BMW and Geely. Analysts at S&P Global Ratings wrote in a recent note that they expect CATL to ramp up capital expenditure over the next two years as it looks to maintain a leading position in the global battery market.

Who are CATL's major customers?

CATL's major customers include most leading automakers such as Tesla, Nio, Geely, SAIC, and Volkswagen. The largest driver of battery growth will come from new energy vehicles. We see rapid NEV adoption in China, stimulated by a regulatory push and improving charging infrastructure.

How did CATL perform in first quarter 2025?

BEIJING (Reuters) - Chinese electric vehicle battery giant CATL's first-quarter net profit grew at its fastest pace in nearly two years, while a rise in revenue ended five straight quarters of decline. Net profit in the first three months in 2025 rose 32.9% year-on-year to 14 billion yuan (\$1.91 billion), a stock market filing showed on Monday.

What percentage of battery sales will CATL expect?

The Citi analysts said that CATL expects total battery shipments to the U.S. market, including both direct and indirect sales, to cover a single-digit percentage of total battery sales, or around 2%-3%, lower than previously anticipated.

How many GWh of power batteries did CATL install in Q3?

CATL installed 64.39 GWh of power batteries in the third quarter in China, up 48.81 percent from 43.27 GWh in the same period last year and up 23.85 percent from 51.99 GWh in the second quarter, according to data compiled by CnEVPost. In the first three quarters, CATL's revenue amounted to RMB 259.04 billion, down 12.09 percent year-on-year.
