

Is China's 'CATL' a good stock to buy in Hong Kong?

China's Contemporary Amperex Technology (CATL), the world's largest producer of batteries for electric vehicles and a supplier for Tesla, has applied for a listing in Hong Kong, setting sights on one of the city's largest stock offerings in years. The battery giant expects to raise at least \$5 billion, according to Reuters.

What does CATL stand for?

Contemporary Amperex Technology Co. Ltd.(CATL),the world's leading electric vehicle (EV) battery manufacturer,has filed for a secondary listing on the Hong Kong Stock Exchange.

What makes CATL a great battery company?

CATL's founder was a scientist before being a businessman. The culture of the company he founded reflects that. From the beginning, CATL's strategy has been to produce the best possible batteries, not necessarily the cheapest or the easiest to manufacture. To achieve this, the company is spending as much as it can on R&D.

Why did CATL stock drop 2% on Wednesday?

Despite the confidence and higher net profits,CATL's stock slipped around 2% on Wednesday following the lower revenue expectations. CATL shares are still up nearly 70% over the past 12 months,as the EV battery leader launched new products and expanded its global market lead. Add Electrek to your Google News feed.

What does CATL's new funds mean for China's battery industry?

With the new funds,CATL plans to strengthen its international operations,including battery production facilities in Hungary,Spain,and Indonesia. The move reflects a broader push by Chinese companies to secure overseas growth while reducing dependence on Western markets.

Is CATL on the way to grow its market share?

Overall,it seems CATL is on the way to keep growing its market shareamong battery volume,from the current 35% to potentially 40-60%. All this while the market itself grows quickly,driven by the costs saving CATL technology creates. Currently,there are no serious competitors for the million-mile battery technology.
