

On October 24, 2024, CATL launched Freevoy Super Hybrid Battery, the world's first hybrid vehicle battery to achieve a pure electric range of over 400 kilometers and 4C superfast charging, heralding a new era for high-capacity EREV and ...

On March 17, 2025, CATL and NIO signed a strategic partnership in Ningde, Fujian. Together, the two parties will jointly build the world's largest battery swapping network and promote the standardization of industry ...

The addition of Contemporary Amperex Technology Co., Limited (CATL) to a Chinese military-linked entities list has thrust Tesla's reliance on the Chinese battery giant into ...

Launched by Contemporary Amperex Technology Co Ltd (CATL), the battery has a 15-year lifespan. The company also claims that the battery has a life of 932,000 miles (1.5 million kilometers)....

The world's leading maker of electric vehicle batteries, Chinese firm CATL, posted a 32.9 percent jump in first quarter profit, even as demand for electric vehicles slows.

A view of CATL headquarters in Ningde, East China's Fujian Province Photo: VCG. Chinese electric vehicle (EV) battery giant Contemporary Amperex Technology Co ...

Looking ahead to 2024, however, many experts worry about rising geopolitical uncertainties abroad while Chinese battery manufacturers go global. CATL's factories in the US and Hungary, for instance, were reported to have ...

CATL and BMW Group announced today a multi-year agreement on the supply of cylindrical battery cells to power the German carmaker's new series of electric models of its ...

CATL is showing novel "Condensed Battery" technology in Shanghai, which claims an energy density of 500 Wh/kg at the cell level. The Chinese battery giant considers it suitable for electric aircraft but also ...

Franco-Italian automaker Stellantis and Chinese battery giant Contemporary Amperex Technology Co Ltd announced on Tuesday an investment of 4.1 billion euros (\$4.3 billion) to form a joint venture ...

The partnership aims to expand self-driving services across China and develop "competitive" autonomous vehicles and battery-swapping technology. CATL will contribute its ...

China's Contemporary Amperex Technology Co., Limited (CATL), a global leader in lithium-ion battery development and manufacturing, is significantly escalating its investment in ...

CATL began production of lithium-ion battery cells in Thuringia, a largely rural eastern German state, in late 2022, and operates a logistics center there as well. The plant ...

With ultra-fast 4C charging, drivers can gain nearly 175 miles (280 km) in just 10 minutes. Gao Huan, CTO of CATL's China E-car Business, explained how the new tech works during the launch event.

China Petroleum and Chemical Corp (Sinopec) and Contemporary Amperex Technology Co Ltd (CATL), a leading battery maker, have signed a framework agreement on ...

Since last year, leading Chinese battery companies such as CATL, Gotion High-Tech, EVE Energy, Envision AESC, Farasis Energy, and REPT have accelerated their steps ...

XIAMEN, China (AP) -- The world's largest maker of batteries for electric vehicles said Wednesday it will get into battery swapping in China in a big way starting next year.. The idea behind battery swapping is to refuel quickly, ...

After completion, it will start large-scale manufacturing of high-quality electric vehicle batteries for BAIC, Xiaomi, LI, and other auto enterprises in Beijing-Tianjin-Hebei ...

Chinese electric vehicle (EV) battery maker CATL on Thursday unveiled a lithium iron phosphate (LFP) battery with a driving range of more than 1,000 kilometres (621 miles) on a single charge.

CATL is the largest battery maker in China and globally. The company installed 246.01 GWh of batteries in China in 2024, up 47.2% from 2023. CATL has a 45.5% market share in China, according to data monitored ...
