What is a CATL freevoy battery?

Designed specifically for EREVs and PHEVs, the Freevoy battery from CATL frees drivers from the constant need to charge, a common drawback of existing hybrid vehicles. The new battery allows many drivers to commute for a week before recharging if needed.

What is freevoy super hybrid battery?

BEIJING, Oct. 24, 2024 /PRNewswire/ -- On October 24, 2024, CATL launched Freevoy Super Hybrid Battery, the world's first hybrid vehicle battery to achieve a pure electric range of over 400 kilometers and 4C superfast charging, heralding a new era for high-capacity EREV and PHEV batteries.

What is CATL freevoy (Xiaoyao)?

The CATL Freevoy (Xiaoyao) is a Hybrid Battery Pack, that is it has two or more chemistries within the one battery system. In this case they are using lithium ion cells and sodium ion cells. The news release from CATL is quite difficult to decipher, but they are making a few claims.

Which brands use freevoy battery?

Brands including Li Auto (NASDAQ: LI), Avatr, Deepal, Nevo, and Neta have chosen to use the Freevoy battery, CATL said. By 2025, nearly 30 hybrid models from brands including Geely, Chery, GAC, Voyah, are expected to be equipped with the battery pack, it said.

Why did CATL add sodium-ion batteries to the freevoy battery?

Sodium-ion batteries are less affected by cold temperatures. To take advantage of that characteristic, CATL added some sodium-ion battery cells to the Freevoy battery to break the low temperature limitations of conventional new energy vehicles.

,(CATL)Freevoy Super Hybrid Battery,, ...

CATL has also pioneered packing sodium-ion batteries together with lithium-ion batteries in the Freevoy battery, which can guarantee discharging in extreme cold, Gao said. ...

BEIJING, Oct. 24, 2024 /PRNewswire/ -- On October 24, 2024, CATL launched Freevoy Super Hybrid Battery, the world's first hybrid vehicle battery to achieve a pure electric range of over 400 kilometers and 4C superfast charging, ...

CATL, the world's largest electric vehicle battery maker, launched the Freevoy Super Hybrid Battery on October 24th, the world's first hybrid battery with an all-electric range of more than 400 kilometers (250 miles) and 4C ultra ...

BEIJING, Oct. 24, 2024 /PRNewswire/ -- On October 24, 2024, CATL launched Freevoy Super Hybrid Battery, the world's first hybrid vehicle battery to achieve a pure electric range of over 400 ...

From these announcements, we can see that CATL's Freevoy battery uses LFP chemistry. It also adopts a nanoscale protective layer and uses high-activity excited state ...
