What's in the Celestron eclipsmart solar eclipse observing kit package?

The Celestron EclipSmart Solar Eclipse glasses observing kit package comes with an A5 booklet and 2x pairs of solar eclipse glasses. (Image credit: Jamie Carter) Inside they're plain. Most importantly, they contain polymer solar-safe filters. Also in the package is an A5 book entitled Be EclipSmart: The Complete Solar Eclipse Observing Guide.

Can you see the Sun with Celestron eclipsmart solar eclipse glasses?

Using the Celestron EclipSmart Solar Eclipse Glasses to view the sun is no different from using any modern pair of eclipse glasses; you see a very small, orange sun against a black background. There's a small amount of glare and it's very difficult to see any sunspots. But it's a great view. The foldout map includes eclipse times on the reverse.

What is a 2X Power viewer solar eclipse observing kit?

The Celestron EclipSmart 2x Power Viewers Solar Eclipse Observing Kit will provide excellent views of solar eclipses for you and a friend--at 2X magnification! These viewers go beyond traditional eclipse glasses with an extra boost in magnification to help you see sunspots and other details on the surface of the Sun.
