Cepalco solar power plant

Where will CEPALCO expand its solar power plant?

Soon CEPALCO will extend this solar power plant at Phivedic Industrial Estatein Tagoloan,Misamis Oriental with a bigger place of 30-hectares and with 20 megawatts capacity powering more or less 18,000 customers of CEPALCO.

Is CEPALCO supplying energy through a GEF solar photovoltaic (PV) project?

Instead,CEPALCO,the third largest electric distribution utility in the Philippines,is supplying energy through a GEF solar photovoltaic (PV) project. This ground- breaking project combines hydro- and photo- voltaic-based power for homes,schools,hospitals,offices,and other users.

How much money did CEPALCO get to build a solar power plant?

Solar power facilitiy. MindaNews photo by Froilan Gallardo Cepalco built the solar power plant with a US$4.3-milliongrant from the Global Environmental Facility (GEF). The company provided an additional US$1.3 million as its counterpart to the grant.

Does CEPALCO have a photovoltaic power plant?

We are operating every day except if it rains," Oliver Labares,Cepalco staff engineer in charge of the photovoltaic power plant,said. The facility sits on a two-hectare land in the mountain village of Indahag. It does not need many technical people to run it. Labares only visits it occasionally to see if the inverters are running smoothly.

Where is the solar power plant in Cagayan de Oro?

The CEPALCO has now getting the attention of my environment advocates as they introduce the Solar Power Plant in Cagayan de Oro,Philippines. The solar power plant has 6,500 solar panels and set on a 2 hectares of land in Barangay Indahag,Cagayan de Oro City.

What is CEPALCO project?

The project is improving CEPALCO's technical competence in electricity generationfrom renew- able sources and providing valuable know-how in the development and operation of clean energy distributed electricity generation. On the national level,it is strengthening the Philippines' capacity for solar power.

Soon CEPALCO will extend this solar power plant at Phivedic Industrial Estate in Tagoloan, Misamis Oriental with a bigger place of 30-hectares and with 20 megawatts capacity powering more or less 18,000 customers of ...

Pérez also noted that CEPALCO is the solar energy pioneer of the Philippines, having developed the first on-grid solar power plant in the country with a capacity of 1 MW. At the time of its ...

The company"s installed capacity is now close to triple the installed capacity of the 1 MW on-grid

Cepalco solar power plant

photovoltaic solar power plant of the Cagayan Power and Electric Company (Cepalco) in Barangay Indahag back in 2004, ...
