

How do I find a ChargePoint station?

The easiest way to find a ChargePoint station is to use the network's app. You can search by station location, price, charging speed, plug type, and charging network, since ChargePoint's app is compatible with roaming.

How many EV charging ports does ChargePoint have?

As part of its network, it provides 70% of the networked Level 2 chargers in North America. ChargePoint maintains one of the largest EV charging networks in the world, with more than 200,000 active, public charging ports. An additional 355,000 ports are accessible to drivers through roaming when you use the ChargePoint app.

Who is ChargePoint?

ChargePoint is an innovator in all realms of EV charging, aiming to simplify the transition to electric vehicles for both the institutions who offer charging and drivers who have an EV. We do this via our extensive portfolio of charging solutions.

How do I pay for charging at a ChargePoint station?

You'll pay for charging at a ChargePoint station via its app. You provide your payment information within the app before your first charge at a station. When you begin your first EV charge, \$10 will be charged to your account to keep as a balance.

How do I charge my EV using the ChargePoint app?

Charging your EV with the ChargePoint app is easy, affordable and convenient. Find and filter the right station near you in the app, drive up, plug in and enjoy nearby amenities. Unplug when you get notified that you're done charging, and go about the rest of your day.

What can I do with the ChargePoint app?

The ChargePoint app allows you to find a place to charge and more from your Apple or Wear OS Watch. It also lets you connect your car to your charging universe with Apple CarPlay and Android Auto. You can use widgets to access charging info, including nearby stations, charging status and place in line, on your phone screen. It's the only app for charging at home - and the world beyond.

Stations on the ChargePoint network are independently owned, and each station owner or roaming partner decides how much it costs to use their stations. ChargePoint processes the payment for paid charging sessions for ...
