What is a solar power bank?

A solar power bank is a portable device that can charge small appliances using solar energy. Jackery portable power banks are a popular choice when you're away from electricity, whether for an office trip or a family camping adventure.

How to choose the best power bank manufacturer in China?

China has many reputable power bank manufacturers that offer great services at competitive prices. Furthermore, the companies will exercise the attention to detail you would expect. However, you have to perform due diligence before choosing any manufacturer. Huntersourcing will help you find the best power bank factory.

How much does a power bank cost in China?

Chinese media estimate that the sourcing price for each power bank is between US\$7 to US\$10, and up to US\$1,000 for each charging station. The cost is far lower than setting up a dockless bike sharing business, where a bike alone could cost several hundred dollars. That's not counting the money spent on maintenance and recovery.
