

Commercial charging stations for electric cars

What is a commercial EV charging station?

Commercial electric vehicle (EV) charging stations designed with reliability and performance in mind. AC level 2 and DC level 3. [Learn more](#)

Should you install a commercial EV charging station?

Let's explore the benefits of installing a commercial EV charging station, what it might cost you, and the incentives your business can leverage. Installing EV chargers at your business can generate passive income, attract new customers and employees, increase customer loyalty, and boost your environmental stewardship.

What are the different types of EV charging stations?

Electric vehicle (EV) charging stations come in three distinct power levels: Level 1, Level 2, and Level 3 (DC fast charging). These options offer varying charging capacities to meet the diverse needs of EV owners.

How much does it cost to install an EV charging station?

Installing an EV charging station at your business can cost anywhere from a few thousand dollars to over \$100,000. Your total costs depend on the charging equipment, labor and materials for electrical and landscaping work, and where you intend to install the chargers. EV chargers are classified as Level 1 (L1), Level 2 (L2), and Level 3 (L3).

Are our EV charging stations reliable?

Our range of electric vehicle (EV) charging stations are designed with reliability and performance in mind. All of our EV chargers are subject to rigorous testing and quality control resulting in a reliable and rugged product built to last.
