

Who are the best solar companies in Bloomington?

Here are the top companies we recommend for solar in Bloomington: Blue Raven Solar was established 2014 with one goal in mind--to provide homeowners across America with a simple and affordable way to get the best solar technology. Our solar company provides homeowners with easy options to get solar all while saving every mon...

How much does solar cost in Bloomington?

The average price of solar is about \$1.99 to \$2.99 per watt in Bloomington, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Do I need a solar battery in Bloomington?

No, you don't need to install a solar battery in Bloomington. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.

Are solar incentives a good idea in Bloomington?

Solar incentives and rebates can cut the cost of installing solar in Bloomington by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
