

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.

What is a shipping container home?

This home starts with the most basic of structures and build onto it's sturdy and efficient modular design. Shipping containers are also inexpensive and by using them for shelter, you'll be recycling materials as well as creating a home for yourself. Each shipping container is 40 foot long and has 320 square feet of space inside.

How many square feet is a shipping container?

Each shipping container is 40 foot long and has 320 square feet of space inside. Stacking two shipping containers together doubles the living area and also provides some height that is needed to create a large surface area for the greenhouse that will be attached.

How much does a solar system cost?

The solar panels, mounting brackets, charge controller, batteries, and electrical system will run you about \$5k to \$10k alone depending on how large a system you put in and what your power needs are. All in all this is a simple system that anyone with some land could build relatively inexpensively.

How much does a shipping container cost?

On average though shipping containers are still cheaper per square foot when compared to traditional buildings. Pricing on the whole thing including the shipping containers, freight, greenhouse materials, wiring, plumbing, siding, insulation, flooring, etc should price out around \$25,000 for a bare bones system.

Should you have an attached greenhouse?

I've personally always loved the idea of having an attached greenhouse, and the Earthship design is a beautiful example of this. Not only does having an attached greenhouse make it convenient to grow your food close by, it also helps heat your home in winter.
