

What is a shipping container roll up door?

Shipping container roll up doors offer a simple and much needed upgrade to many shipping containers. Add an extra door on the side of your shipping container to allow for ease of access and utility. The Model 650 Mini Storage Roll up Door is designed and manufactured with durability, quick installation, ease of maintenance in mind.

Should I add a roll up door to my shipping container?

Add an extra door on the side of your shipping container to allow for ease of access and utility. The Model 650 Mini Storage Roll up Door is designed and manufactured with durability, quick installation, ease of maintenance in mind. Standard features eliminate the need for upgrades and additional charges.

What sizes are available for roll-up doors?

Clear dimension openings in heights and sizes (the ranges vary depending on which type of door you choose to build). Heavy-duty doors can range from 4' to 40' while medium-duty from 4' to 20'. Our roll-up doors are multipurpose and can be used for a lot of other applications; not only shipping containers.

Do roll-up doors come with a kit?

All our roll-up doors come as a complete kit, custom made for your application. The doors are easy to install and are designed to give many years trouble-free operation. The doors can be either header or face of wall mounted and come with all the necessary parts for a complete installation.

How do paylon roll-up doors work?

All main components are easy to replace. Paylon's roll-up doors provide an easy access to your goods and merchandise. With enough modifications, the roll-up doors can be placed on all four vertical sides of the shipping container at the same time. You can divide your container into two or more smaller parts and add roll-up doors to each of them.

What is the maximum opening size for a door?

Applicable opening sizes range from 4' wide through 8' wide, with maximum height being 7'. Doors may be installed on steel, concrete, or filled block jambs. All door sizes meet the wind load requirements of the interior and exterior zones for 100 mph SBC wind speed and 130 mph exposure B, ASCE 7 wind speed.
