

Does Vuse contain diacetyl?

Diacetyl is a chemical that is associated with a lung condition known as popcorn lung. It is banned as an ingredient in nicotine vapes and e-liquids that are regulated in the UK. Vuse products do not contain diacetyl, THC or Vitamin E acetate. These ingredients have never been added to Vuse products. 4.

What e-liquids are used in Vuse devices?

The e-liquids used in all of our devices contain a carefully balanced mixture of propylene glycol (PG) and vegetable glycerin (VG) and flavourings. Oils containing THC, Diacetyl and Vitamin E Acetate are not added to Vuse products. More information about choosing the right nicotine strength can be found [here](#).

Does Vuse e-liquid contain nicotine?

Vuse vapes produce a variety of e-liquids, some of which contain nicotine, while others have none. To check if your product contains nicotine, check the nicotine strength of the cartridge, usually measured in mg. 0mg means there's no nicotine in the e-liquid.

How many ingredients are in a Vuse e-liquid?

A Vuse E-Liquid has up to 5 ingredients. Some contain water, flavourings and/or nicotine - and some contain none of these. However, all our E-Liquids have one pair of ingredients in common - a base made of Propylene Glycol (PG) and Vegetable Glycerin (VG). Learn more about each e-liquid ingredient: [PROPYLENE GLYCOL \(PG\)](#)

Does Vuse use propylene glycol?

Vuse only use pharmaceutical grade propylene glycol in our products. GLYCEROL (ALSO KNOWN AS VEGETABLE GLYCERINE OR VG) VG is colourless and odourless but, unlike PG, it has a slightly sweet flavour. It's more viscous than PG - so it produces much thicker vapour when heated, making higher-VG E-Liquids ideal for budding cloud chasers. [NICOTINE](#)

Where is diacetyl found in vape juice?

Vape juice is made using VG, PG, and flavors (and sometimes nicotine). But diacetyl isn't found in the VG, PG, or even the nicotine...it's found in the flavorings. We mentioned in one of our previous articles what vape juice is made of and even how you can make your own vape juice.
