

Does Duke Energy offer solar rebates in North Carolina?

Duke Energy customers in North Carolina will soon have access to rebates worth up to \$9,000 for home solar and battery systems. In May 2024, Duke Energy is opening applications to the PowerPair pilot program that offers a one-time incentive for residential solar and battery installations.

What is Duke Energy powerpair?

Duke Energy is implementing PowerPair, a new incentive-based pilot program for installing home solar generation with battery energy storage in its Duke Energy Carolinas and Duke Energy Progress service areas in North Carolina.

How much does Duke Energy pay for solar panels?

Participants could receive monetary incentives from Duke Energy to offset the cost of installed equipment. The solar incentive is \$0.36/watt for solar panels to a maximum of 10 kW-AC; capped at \$3,600 per residence. The battery incentive is \$400/kWh for battery storage to a maximum of 13.5 kWh total capacity (up to \$5,400).

Does Duke Energy offer a solar & battery incentive?

The incentive only applies to new solar AND battery systems. Solar-only and battery-only systems do not qualify. At this time, Duke Energy has not released any equipment eligibility requirements. There are two options in the program: PowerPair and PowerPair + EnergyWise Battery Control. The key differences are:

Does Duke Energy have a private solar system in North Carolina?

Currently, in North Carolina, Duke Energy has more than 6,000 customers who have private solar systems - with a total capacity of just over 50 megawatts. The program expects to increase North Carolina's private solar market by 200 percent over the next five years, providing an economic boost for the state's solar installation business as well.

How do I sign up for Duke Energy powerpair program notifications?

Visit the PowerPair program page to sign up for program notifications. Solar and battery allow homeowners to hedge against rising utility rates and power their homes when the grid goes down. With up to \$9,000 in rebates per system, Duke Energy PowerPair program reduces the cost burden of installing solar and battery systems in North Carolina.

Key takeaways. A solar installation in South Carolina costs roughly \$2.62 per watt, and the average 6 kW system costs around \$15,720. All Duke Energy customers who go solar are required to be on a time-of-use electric rate ...
