

Eclipsmart 2x power viewers solar eclipse observing kit

What is a Celestron eclipsmart 2X Power viewer?

Celestron EclipSmart 2x Power Viewers are a must-have to view partial and total solar eclipses like our upcoming 2023 Annular Solar Eclipse and 2024 Total Solar Eclipse. The Celestron EclipSmart 2x Power Viewers Solar Eclipse Observing Kit will provide excellent views of solar eclipses for you and a friend--at 2X magnification!

What is a 2X Power viewer solar eclipse observing kit?

The Celestron EclipSmart 2x Power Viewers Solar Eclipse Observing Kit will provide excellent views of solar eclipses for you and a friend--at 2X magnification! These viewers go beyond traditional eclipse glasses with an extra boost in magnification to help you see sunspots and other details on the surface of the Sun.

How much does a solar eclipse observing kit cost?

The Celestron EclipSmart 2x Power Viewers Solar Eclipse Observing Kit, which costs US\$12.95, is a slightly different product, comprising a couple of pairs of what Celestron calls Solar Power Viewers.

What is a solar eclipse kit?

This kit makes observing partial and total solar eclipses like the upcoming 2023 Annular Solar Eclipse and 2024 Total Solar Eclipse easy. You'll receive two power viewers and a beautiful eclipse poster packed with helpful information, a city-by-city eclipse timetable, and a detailed map of the eclipse's path.

What are eclipsmart 2X Power viewers?

The solar filters feature an orange tint, producing a natural look perfect for visual observing. The EclipSmart 2x Power Viewers come in a pack of two for you and a friend to share the views of a lifetime.

What color are eclipsmart glasses?

NATURAL ORANGE TINT: EclipSmart glasses reveal the Sun in the visible (white light) spectrum, but we've added an orange tint for a more natural look and a comfortable observing experience. The Celestron EclipSmart 2x Power Viewers Solar Eclipse Observing Kit will provide excellent views of solar eclipses for you and a friend--at 2X magnification!
