

What are edifice's solar powered watches?

Harness the limitless energy of light with EDIFICE's Solar Powered Watches, featuring CASIO's cutting-edge Tough Solar technology.

How do edifice solar powered watches work?

CASIO's EDIFICE Solar Powered Watches operate using a built-in solar cell that captures light and converts it into energy. While direct sunlight provides the quickest and most efficient charge, the watch can also harness power from other light sources, including fluorescent lighting and indirect sunlight.

How long does a edifice solar powered watch last?

Depending on the model, an EDIFICE solar powered watch can operate for up to approximately seven months on its rechargeable battery under normal use without exposure to light after a full charge. If stored in total darkness with the power save function activated after a full charge, the watch can operate for up to approximately 19 months.

Where can I buy Casio Edifice solar smartwatch?

Looking for specific info? Buy Casio Edifice Solar Bluetooth Smartwatch with Carbon Fiber World Time Chronograph and Phone Finder - ECB-2000PB-1ACR and other Wrist Watches at Amazon.com. Our wide selection is eligible for free shipping and free returns.

Do edifice solar watches have an accumulator?

EDIFICE Solar watches are always equipped with an accumulator. The accumulator is charged automatically and does not require manual activation. EDIFICE Solar PROs & CONs Use our advanced table to filter all watches in the listing by price, or search a top feature by typing for example "Sapphire" in the search form.

How long do solar powered watches last?

If stored in total darkness with the power save function activated after a full charge, the watch can operate for up to approximately 19 months. Solar Powered Watches offer both style and sustainability.
