

Electric car charger station at east lake golf club

How can I find EV charging stations?

To find EV charging stations, download the EVgo app and discover our 1,000+ stations. You can also contact the EVgo Charging Crew with any EV charging-related questions.

How do I find out if a charging station is nearby?

To find out if a charging station is nearby, use ChargeFinder's station page which shows relevant information like charging speed, outlet type, price, and location. Additionally, the "Food and Shopping Nearby" feature helps you find points of interest near the charging station.

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

What power level does a destination Charger offer?

Destination chargers usually provide an output of 3 kW to 22 kW. The color shades on the map indicate the power level: light orange for 3-7 kW and darkest orange for 22 kW. The most common are fast chargers, shown in dark blue, which provide 50 kW.

What information is displayed on the charger overview?

From the overview, there is information about number of chargers that are available, occupied or out of order. With a simple click, the price and availability for each charger is displayed. Live status for all major operators in one place is unique and something ChargeFinder is the only one to show.

What is the most common type of charger shown on the map?

The most common type of charger shown on the map is fast chargers that provide 50 kW, which are shown in dark blue on the map. Destination chargers usually provide an output from 3 kW to 22 kW.
