

How do I find out if a charging station is nearby?

To find out if a charging station is nearby, use ChargeFinder's station page which shows relevant information like charging speed, outlet type, price, and location. Additionally, the "Food and Shopping Nearby" feature helps you find points of interest near the charging station.

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

What if a station is missing from the charging map?

If a charging station is missing from the map, it is easy for anyone to add it. It is also possible to edit and update information on all existing stations.

What color represents Superfast chargers on the map?

Chargers with power over 100 kW are shown with a purple marker on the charging map. These are known as Superfast chargers (HPC - High Power Chargers) and provide an effect from 100 kW up to 350 kW.

How is ChargeFinder updated?

ChargeFinder is continuously updated with new charging stations from various sources. This includes larger charging networks, individual smaller players, and other data sources. The information is supplemented and refined with the help of ambassadors and the growing community.

What information is displayed on the charger overview?

From the overview, there is information about number of chargers that are available, occupied or out of order. With a simple click, the price and availability for each charger is displayed. Live status for all major operators in one place is unique and something ChargeFinder is the only one to show.
