

What is GO-Station EV charging?

Instead of grumbling, we decided to do something about it, and in 2017, Go-Station was born. Today, with Go-Station's flagship charging location in New Mexico, customer access to more than 4,000 EV charging sites across North America, and a dynamic customer-focused charging app, Go-Station is poised to transform the EV driving experience forever!

What is GO-Station?

GO-Station is a service that puts power in your palm and makes life as an EV driver simple and easy. Go-Station is curing charge anxiety, one EV driver at a time.

How to find EV charging stations?

Generally, there are two types of apps to assist in finding charging stations: Map-based Apps: Apps that provide general mapping and navigation services, such as Baidu Maps (Baidu Ditu, ????) and Amap (Gaode, ??). Charging Network Apps: Apps specifically focused on EV charging networks.

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

How to charge an electric car at home?

Charging an electric car at home with a smart wallbox such as the go-e Charger Gemini or Gemini flex is easy. You have time to get to grips with how it works, as it is installed right outside your home or in the garage. In addition, the set up is usually very quick.

How do electric cars and charging stations work?

Your electric car and the charging station identify each other when you plug in the charging cable, and your payment data is already saved, so you don't need to type it in on your smartphone's screen, which is super useful especially when you're in a hurry or it's raining outside. Just plug in the cable and the charging starts.

Vehicle electrification is a small but mighty step in addressing the climate crisis. The recent surge in EV sales is encouraging, but all those vehicles need charging--and we have a ways to go before charging stations become ...
