

Where can I charge an electric vehicle in New Zealand?

Charging an electric vehicle in New Zealand has never been easier. There are thousands of public electric vehicle charging stations across New Zealand. You can find them in public areas like supermarket car parks, shopping malls, campgrounds, tourist spots and beaches.

How many EV charging stations are there in New Zealand?

All of the charging stations available on our maps are vetted by NZTA - they meet strict requirements of safe, reliable and interoperable stations to be incorporated into the EVROAM database - which then supplies the AA's EV Charge Finder. There are currently over 20,000 EVs registered in New Zealand, and that number will only increase.

How many EV charging stations are available at Waikato Innovation Park?

Six electric vehicle charging stations are available at Waikato Innovation Park. A WEL networks fast charger is available adjacent to the SkyPoint Building and four public EV charges next to the Tetra Pak building.

Does New Zealand have a charging station?

The charging network in New Zealand is not a single utility; it comprises multiple operators and payment systems. A charger can be AC (slower, cheaper; most require your own cable) or DC (faster, more expensive, cable not needed). How do I charge an electric car at a public charging station?

Where can I find EV charging points in New Zealand?

Explore the benefits of EVs and view our EV charging map. Travelling further afield? Waka Kotahi NZ Transport Agency provides free 'real-time' information about the availability of public charging points around New Zealand through their live database EVRoam - see their Journey Planner EV charging points map.
