

Where are Hoboken's electric vehicle charging stations?

In 2021, Hoboken installed their first public electric vehicle (EV) charging stations. Since then, more than 3,300 people have charged their cars more than 4,300 times. Of all those charging sessions, almost half have taken place at Hoboken's only on-street charging station on First Street.

Will Hoboken have more EV charging ports after the Volta stations?

To date, Hoboken has not received any funding from President Biden's Bipartisan Infrastructure Investment and Jobs Act (IIJA), but Baer says that Hoboken will have more public on-street EV charging ports than any other community in New Jersey after the Volta stations are installed.

How can Hoboken improve EV charging accessibility?

"Expanding the accessibility of EV charging infrastructure is a crucial initiative within Hoboken's Climate Action Plan to reduce greenhouse gas emissions and become carbon neutral by 2050," said Baer. "By partnering with Volta, Hoboken can expand EV charging accessibility without paying the high upfront costs associated with the infrastructure."
