Are there charging stations for electric vehicles in North York?

Electric vehicle drivers can certainly find charging stations (level 2 and 3) within North York's territory. Currently, there are charging stations within a radius of 10 miles of the City of North York. The charging stations for electric vehicles constitute an important step of sustainable development approach supported by the City of North York.

How do I select a charging station?

Selecting an individual station displays the name of the charging host, address, and contact information. Most of the stations also include charging rate information (AC Level 1, AC Level 2, or DC Fast Charge), number of charging ports, and hours of accessibility. Private and planned stations can be displayed by selecting "more search options."
