How many electric car chargers are there in New Brunswick?

There are an estimated 88 electric vehicle chargers available for public use in New Brunswick, almost one for every car. NB Power VP Keith Cronkhite told the EUB it was important for NB Power to build a network of electric car charging stations even though the province has few electric vehicles.

Does NB Power have electric vehicle charging stations?

NB Power has installed a number of electric vehicle charging stations around New Brunswick, like this one at Magnetic Hill opened by former Finance Minister Cathy Rogers in 2017. The EUB found the stations to be outside of NB Power's core business and told it not to spend ratepayers' money on them. (CBC)

Will private charging stations trigger new electric vehicle sales in New Brunswick?

The Dunsky report does provide a business case and contends privately funded charging stations in New Brunswick will be insufficient in future years to trigger significant new growth in electric vehicle sales NB Power investments could.

How many electric vehicle charging stations are in Newfoundland and Labrador?

Newfoundland and Labrador Hydro is reporting progress in setting up electric vehicle charging stations across the island, and it's "just the beginning" according to President and CEO Jennifer Williams. She says five new EV stations are now operating in the province.

Does New Brunswick have a Tesla charging station?

"We really love it." Tesla has installed some charging stations in New Brunswick, but an NB Power consultant says the utility will have to spend \$20 million of its own money to build the full charging infrastructure needed to maximize electric car sales over the next 15 years.
