Need to find EV charging stations in New Westminster? ChargeHub has the latest info on charging stations.

Where can I charge my electric car in Westminster?

Charging points are available at a number of privately operated car parks in Westminster, including those operated by Q-Park and NCP. Please do not charge your electric vehicle by running a cable across the public highway from a domestic or business electricity supply.

Where can I find a list of EV charging stations?

Please visit for a list of EV charging stations. The City charges a fee for the use of its public EV charging stations; this allows the City to recover its costs for operation, maintenance, and expansions of the EV charging network.

What is New Westminster e-mobility?

The City of New Westminster is committed to accelerating electric mobility (e-mobility) adoption in our community, including electric vehicles. The use of EVs instead of conventional internal combustion engine vehicles helps: foster green economic development, among other benefits.

What is EV charging at non-residential buildings?

EV Charging at non-residential buildings helps those who cannot charge at home. Level 2 chargers that allow for load-sharing between vehicles are suitable for workers who will be parked at a building for a longer duration, while dedicated, non-load shared Level 2 chargers are envisioned for visitors who spend less time at a building.

Do you need an EV charger for a hotel?

Electric Vehicle Supply Equipment (EVSE), also known as EV chargers, are not required to be installed, however, they are encouraged. For hotels, 100% of provided off-street parking spaces must be EV Ready as their use is considered more residential in nature. EV Charging at non-residential buildings helps those who cannot charge at home.
