

Does eufy work with a solar panel?

Yes, the Solar Plus(TM) solar panel is designed to be compatible with all eufy camera models, facilitating easy integration with our entire range of security cameras. For more details, visit our product listings. Charging performance may vary depending on regional solar radiance.

Does the solar panel work with eufy security cameras?

The Solar Panel works with our eufy series security cameras. When placed in direct sunlight, the Solar Panel provides energy to your connected cameras. To get the maximum amount of sunlight exposure, install the Solar Panel on the roof or wall outside of your house. While positioning the Solar Panel, keep the following factors in mind.

What is a eufy Solar Outdoor Camera?

A eufy Solar Outdoor Camera is an outdoor camera equipped with a solar panel and a rechargeable battery. This allows it to operate non-stop even during power outages. With just two hours of direct sunlight per day, the battery life can be extended to an infinite amount of power.

How do I install a solar panel on my eufy camera?

Open the eufy Security app, go to Camera Settings > Device Info > Check for camera firmware to update your camera firmware. 3. Go to Camera Settings > Power Manager > Power Source. Tap Power Source and select Solar Panel. You're done! Your Solar Panel is set up.

Are eufy security solar panels safe?

The 360-degree mounting bracket and wall anchors make installation easy and flexible. Certified Safe for eufyCam: Only certified eufy Security solar panels can sync with eufyCam to ensure correct power management. Non-certified solar panels may damage the eufyCam battery. IP65 Weatherproof: Built to withstand extreme weather conditions.
