

Ev car home charging station sydney northern beaches

How will EV charging work in the Northern Beaches?

To accelerate and support the uptake of electric vehicles (EVs), we're proposing to install an additional 13 public DC EV charging stations across the Northern Beaches in partnership with JOLT Australia. These fast-charging stations will be in existing public parking spaces, converting one adjacent parking space to EV charging only.

Where can I charge my EV in Sydney?

Exploren- With over 100 AC charging stations across Sydney, Exploren operates the largest EV charging network in the Sydney region on PlugShare. Their stations are equipped with Type 2 plugs, the industry standard in Australian and Europe, making them compatible with most electric vehicles.

How can we support electric vehicles in Northern Beaches?

In line with our Move - Northern Beaches Transport Strategy 2038, we are providing greater support for electric vehicles (EV) by facilitating the introduction of additional EV charging stations. Electric vehicle charging points have proven to boost surrounding commercial activity by providing an additional use to supplement existing infrastructure.

Where can I charge my EV?

The most popular locations for more EV charging were shops, beaches, parks and car parks across the Northern Beaches. There were also suggestions for charging at places like boat ramps, sports grounds and petrol stations. The map is closed to new suggestions but you can still view what was suggested and where.

Where are EV charging stations in Australia?

The Electric Vehicle Council's Australian EV Charger Map on their website shows a Shire of Plantagenet charging station in Mt Barker, another in Cranbrook, and two more in Kendenup, which is between the two towns. The Twitter post was shared by the main WA Police Force Facebook account, with the resulting comments a mixed bag.

What is an EV charging bay?

An EV charging bay is a parking bay for electric vehicles (EVs) to park and charge their cars from a charging point. With over 13,000 electric vehicle (EV) public chargers now available in the UK, retail outlets are increasingly requesting new EV parking bays in their car parks.
