

What is Eve battery?

EVE is one of the top 10 lithium ion battery manufacturers in China. Its main business is the research and development, production and sales of consumer batteries (including lithium primary batteries, small lithium-ion batteries) and power batteries (including new energy vehicle batteries and their battery systems, energy storage batteries).

What is the eve button?

The Eve Button is an accessory designed especially for HomeKit so it connects directly to your HomeKit hub. There are three ways you can press the button; single press, double press, or long-press. You can configure each of the presses to activate a different scene from HomeKit. This device is super portable and has a long-lasting battery.

Where are Eve power batteries made?

In the field of power batteries, EVE Power has production bases in Huizhou, Jingmen and Yancheng, covering various technical routes such as cylindrical, square and soft packs. Power batteries are mainly composed of ternary soft packs, ternary squares and iron-lithium squares.

What sets Eve apart from other battery companies?

EVE stands out from other battery companies due to its experienced R&D team with over 20 years of experience, numerous patents, and advanced equipment. They continually develop new technology in battery design and production, and implement advanced management systems like 5S, 6 Sigma, Lean Production, and SPC.

Can I withdraw my consent to use Eve button?

You can withdraw your consent at any time with effect for the future. Yes, I agree. I don't agree. How do I reset Eve Button? Contact our highly professional, multilingual product support team. Discover tips and inspiration for your smart home setup in the Eve blog.
