

Does Eve degree need to be charged?

Because it uses a replaceable CR2450 battery, the Eve Degree does not need to be charged. According to Elgato, the battery should last for a year and it costs around \$5 to replace. Eve Degree has an IPX3 water resistance rating, which means it can withstand spraying water for up to five minutes.

How long does Eve degree battery last?

According to Elgato, the battery should last for a year and it costs around \$5 to replace. Eve Degree has an IPX3 water resistance rating, which means it can withstand spraying water for up to five minutes. That means it can hold up to a little light rain, but in a downpour, it needs to go indoors.

Does the eve degree have a temperature alarm?

On its own, however, the Eve Degree isn't that versatile. It doesn't offer temperature alarms or really anything but monitoring and storing temp and humidity data. It's essentially a minor element for a greater system of tools. Another potential issue is its reliance on Bluetooth, as opposed to Wi-Fi.

How does Eve degree work?

Eve Degree doesn't only track changing conditions. It makes you the master of your home's microclimate. Monitor conditions on your doorstep. Stay in or venture out? Bundle up or dust off your deck chair? Precision-engineered sensors measure temperature, humidity, and air pressure with unrivalled accuracy.

How much does the eve degree cost?

The Eve Degree is far from cheap at \$69.99, especially when a standalone temperature/humidity monitor can be purchased for less than \$10, but it has the potential to add valuable functionality to a HomeKit setup.

How accurate is Eve degree?

Eve Degree can measure temperatures between 0°F and 130°F with a +/- 0.54°F accuracy range, and between 0 to 100 percent humidity with a +/- three percent accuracy range. That's identical to the older Eve Weather and superior to the Eve Room, which can only measure 32°F to 130°F and 5 to 95 percent humidity.

Because it uses a replaceable CR2450 battery, the Eve Degree does not need to be charged. According to Elgato, the battery should last for a year and it costs around \$5 to replace. Eve Degree has...
