

Does Eve University give a bonus to capacitor capacity?

Mindflood Booster gives a bonus to capacitor capacity. Antipharmakon Aeolis gives a bonus to capacitor capacity. EVE University members can get full reimbursement for most of these skills, among many others, through the University skillbook program. Capacitor Management - 5% bonus to capacitor capacity per skill level.

Why is a cap battery more powerful than a large battery?

Because of the way cap recharge works, a cap battery of a particular size is more powerful for cap regen on smaller capacitor than it is a large one. Do a quick Google on how capacitor (and shield) recharge works in eve. Edit- nvm beat me to it. What is total capacitor recharge time derived from?

Do Eve University members get full reimbursement for skills?

EVE University members can get full reimbursement for most of these skills, among many others, through the University skillbook program. Capacitor Management - 5% bonus to capacitor capacity per skill level. Capacitor Systems Operation - 5% reduction in capacitor recharge time per skill level.

Can a capacitor battery fit a ship?

Capacitor Batteries are also available on the market. These modules increase capacitor capacity. These range from Micro to Large. The size of the battery that you can fit depends on your ship's powergrid and CPU. To fit a capacitor battery, you generally need to have Science, Engineering, and Energy Grid Upgrades skills trained.

Does Eve have a Powergrid?

Every ship in EVE has an internal generator, which provides the "powergrid" you see in the fitting window. Modules fitted onto the ship connect to the powergrid and reserve a portion of the generator output for themselves, reducing the remaining powergrid when fitted.

How do I fit a capacitor battery?

To fit a capacitor battery, you generally need to have Science, Engineering, and Energy Grid Upgrades skills trained. The Engineering category of skills includes quite a few skills that reduce the capacitor need of specific types of modules. Here is a list of just a few of the skills that can reduce your capacitor needs: ...and more!

Smaller batteries in big hulls are normally not worth it, the Cap Rechargers give you a better chance of stability since they are a percentage improvement. Cap Boosters have ...

Capacitor Batteries are a type of low-slot enhancement module in [[EVE Echoes]] that can be fitted to ships. Available capacitor batteries include: "Acolyth" Large Capacitor ...
