

Are Eve's motionblinds a good smart home accessory?

Smart shades (or smart blinds) are one of my favorite smart home accessories I own. But they tend to be very expensive,very slow,loud,and often require yet another smart home hub. Eve's new MotionBlinds solve most of those problems in one excellent package. Before we get into the full review,though,I want to cover a moment of transparency.

Do Eve smart blinds need a battery?

Instead of removing a battery, as found with most other smart blinds, Eve stuck a USB-C port in the frame of its smart blinds. Now look at the closest window in your home and imagine trying to plug in the top of your existing curtains to the nearest outlet. That's not a pretty thought at all.

What are Eve motionblinds blinds?

The blinds combine Eve MotionBlinds motors with high-quality fabrics,available in semi-transparent and blackout options as well as with energy-saving,insulating properties. Delight in the convenience of smart shading with smart blinds that perfectly fit your window size and enhance your interior aesthetic!

Does Eve's New motionblinds really work?

Eve's new MotionBlinds solve most of those problems in one excellent package. Before we get into the full review,though,I want to cover a moment of transparency. This is the second review unit Eve sent me. The first didn't work on arrival,every attempt to set up the blinds failed.

Do Eve motion blinds work with HomeKit?

Overall,the Eve Motion Blinds are relatively quiet and smooth. Having not used other smart blinds,I can't compare their sound or speed. Since these work with HomeKitthough,I did test scheduling and automation. Note that if you don't have a Thread network,the blinds also support Bluetooth.
