

What is Eve battery?

Eve Power Co.,Ltd. is a national high-tech enterprise specializing in the innovative development of lithium batteries. Their primary lithium battery holds the leading position in China, and their ER battery ranks the top in the world.

What are the benefits of Eve batteries?

The features and benefits of EVE batteries make them an excellent choice for anyone looking for reliable and long-lasting energy storage solutions for their EVs, homes, or any other application requiring high-capacity and fast-charging rechargeable battery technology.

What is the power battery installation capacity of Eve?

In the first half of 2021, Eve achieved a power battery installation capacity of 0.87GWh, ranking 10th in the world. In the field of automotive power battery, Eve is one of Xiaopeng's core suppliers.

What is a 33V 18650 battery?

The EVE 33V 18650 Battery is a high-capacity lithium-ion rechargeable power cell designed for long-lasting and reliable performance. With an impressive 3300mAh capacity and a continuous discharge rate of 10A, this battery is an excellent choice for moderate to high-drain devices that require steady and efficient power output over extended periods.

Where is EVE Energy based?

Based in Malaysia, Serving the Globe! The equipment entry ceremony for EVE Energy's first factory with overseas delivery capacity was successfully held. To be the most creative lithium battery leading company and continuously overcome the core technical issues.
