SOLAR PRO. Eve window sensor battery

How much battery does the eve door & window take?

Thread is also touted as being incredibly power efficient which is ideal in wireless sensors but Eve doesn't provide estimated battery life figures for the Door and Window. Speaking of the battery,the Eve Door and Window is powered by a single 1/2 AA(ER14250) 3.6-volt cell.

How does the eve door & window sensor work?

Additionally, it supports mobile app control, providing convenient access to monitor and manage the status of doors and windows remotely. To power the EVE Door & window sensor, it requires a single AA battery. It has a power supply input voltage of 3.6 V, ensuring efficient and reliable operation.

How long does the eve door & window sensor module last?

The Eve Door &Window sensor module is powered by a half-AA (ER14250 3.6V) battery, which is included in the box. The battery that came with our review unit ended up lasting about 11 months; that's a tad shy of Eve's estimate of a year, but it's close enough.

Should I install Eve door and window sensors?

If you have recently installed your sensors but experiencing issues with them, check to see whether they are positioned closely enough to one another to allow for a direct line of sight from one sensor to the next. Any home that utilizes smart technology would benefit from installing the Eve Door and Window sensor.

Why is my Eve door & window sensor not working?

The EVE Door &Window sensor may have reduced performance or may not work properly on metal doors/windows due to interference. If this is the case, consider using a different type of sensor specifically designed for metal surfaces. How far can the EVE Door &Window sensor be placed from the hub or receiver?

Is Eve door & window sensor a smart home?

Due to the fact that it is both easy to use and has the potential to be of great use, the Eve Door & Window Sensor is one of the most intriguing examples of smart home technology. On the other hand, throughout the process of setting it up, you can run into some typical issues and find it difficult to solve them on your own.
