

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

How can I find the right EV charging station?

Use the charging map in the ChargePoint app to find the right EV charging station for you. Filter stations near you, drive up, plug in, and enjoy the amenities nearby. With the largest global EV charging network, including ChargePoint and roaming partner stations, finding the right station is easy, affordable, and convenient.

What are Superfast chargers?

Superfast chargers, also known as High Power Chargers (HPC), are chargers that provide an output from 100 kW up to 350 kW. These chargers are shown with a purple marker on the charging map. The most common type of fast chargers provide 50 kW and are shown in dark blue on the map.

How do I find out if a charging station is nearby?

To find out if a charging station is nearby, use ChargeFinder's station page which shows relevant information like charging speed, outlet type, price, and location. Additionally, the "Food and Shopping Nearby" feature helps you find points of interest near the charging station.

What color represents Superfast chargers on the map?

Chargers with power over 100 kW are shown with a purple marker on the charging map. These are known as Superfast chargers (HPC - High Power Chargers) and provide an effect from 100 kW up to 350 kW.

Can I use the ChargePoint app to start charging?

Start charging instantly however you choose, with many convenient ways to begin a session at your fingertips. Press the "Start Charge" button in your ChargePoint app to begin charging at all ChargePoint and certain roaming partner stations. Tap your ChargePoint RFID card to start charging at ChargePoint or roaming partner stations.
