

Why did Juniper Green Energy partner with First Solar?

Juniper Green Energy has partnered with First Solar to procure 1 GW of solar modules, securing a reliable supply for its projects across India. The deal emphasizes domestic sourcing and reduces reliance on China.

What is a pact between First Solar & Juniper Green Energy?

New Delhi, Dec 10 (PTI) Juniper Green Energy on Tuesday said it has signed a pact with First Solar for the procurement of 1 GW of solar modules. The Gurgaon-based renewable energy company plans to deploy these modules in the coming financial year for its projects across Rajasthan, Gujarat and Maharashtra, a company statement said.

Where will first solar modules be deployed?

The First Solar modules will be deployed at projects across Rajasthan, Gujarat and Maharashtra. Image: Juniper Green Energy. Indian independent power producer (IPP) Juniper Green Energy has signed a 1GW module supply deal with US module manufacturer First Solar.

Where will first solar install solar panels in India?

Gurgaon-based Juniper Green Energy said it plans to deploy the modules in projects in Rajasthan, Gujarat, and Maharashtra over the next financial year. First Solar will deliver the PV modules from its Chennai factory over a two-year period as part of the agreement.

Does first solar rely on China?

First Solar will deliver the PV modules from its Chennai factory over a two-year period as part of the agreement. "The agreement allows Juniper Green Energy to reduce its dependence on China given that these modules are truly domestic with no reliance on China's crystalline silicon supply chains," said Juniper Green Energy.

Why is first solar sourcing our modules?

Sourcing our modules from First Solar enhances our domestic content strategy while aligning with a trusted partner offering a highly competitive product," Naresh Mansukhani, CEO, Juniper Green Energy, said.
