

Does FPL solartogether work in the rain?

FPL SolarTogether benefits you even when it's raining and cloudy at your home or business. The solar power plants dedicated to this program are located throughout FPL's 35 county service territory, so you still receive solar energy.

Does Florida Power & Light offer a solartogether program?

Florida Power & Light offers the SolarTogether program for residents who wish to support solar energy. But does it provide any real savings?

How does FPL offer solar energy?

One of the ways FPL has offered solar energy to customers is through its SolarTogether program. SolarTogether is a way for FPL customers to directly support solar projects installed in the state.

How does FPL's solartogether program work?

As a part of FPL's SolarTogether program, customers can choose to pay a fixed monthly fee in order to offset a portion of their energy usage with solar power. The program is designed to allow any FPL customer to subscribe for a share of solar power, with the goal of making solar more accessible and affordable. So how does it work?

What is the FPL solar together program?

The FPL Solar Together program is offered by the Florida Power & Light utility company. Under this program, customers can subscribe to a certain amount of solar energy, with the goal of offsetting up to 45% of their energy usage. The subscription rate is a fixed \$6.76 per month per kilowatt subscribed, with a credit rate of 3 cents per kilowatt.

How does Florida's solar program work?

Solar projects can help offset the use of electricity from FPL, and the program helps to build out solar infrastructure in Florida. Additionally, the program is signed by Vote Solar, The CLEO Institute, and other solar advocates, making it a more credible source of support for solar energy.
