

How many solar energy centers are there in Florida?

JUNO BEACH, Fla. - Florida Power & Light Company (FPL) today brings 10 new solar energy centers online throughout Florida. FPL now has 60 solar energy centers installed statewide - capable of generating enough clean, emissions-free energy to power approximately 900,000 homes throughout the state.

Does Florida Power & Light offer net metering?

Yes, Florida Power and Light offers a net metering program for customers who go solar. With full retail net metering, your home consumes the solar energy produced on your roof first. If you generate more solar energy than your home needs, the electricity gets sent to the grid, and FPL will put a credit on your bill to offset your future usage.

What is FPL SolarNow?

FPL SolarNow is a community solar program that brings solar power to Florida through hundreds of solar arrays across the state. With the support of dedicated participants, it enables customers to benefit from solar energy without installing panels on their own property.

What is Florida's largest solar-powered battery?

The Manatee Energy Storage Center in Florida is made up of 132 energy storage containers, organized across a 40-acre plot of land, equivalent to 30 football fields. Florida Power and Light Company (FPL) unveiled what it is calling the world's largest solar-powered battery.

Does FPL support solar in Florida?

FPL is invested in supporting Florida solar. In 2016, they built three 74.5 MW solar arrays, each with the capacity to generate power for about 15,000 homes. Since then, they have expanded their investment with a goal of installing 30 million solar panels in Florida by 2030.

Should you install solar panels in Florida?

If you're a Florida Power and Light (FPL) customer, installing solar panels can help you use less electricity from FPL and more of what you generate on your own roof. This can save you hundreds or even thousands of dollars a year on your electricity bills.

Florida Power & Light Company. Florida Power & Light Company is the largest energy company in the U.S. as measured by retail electricity produced and sold.
