

Does Scarlett solo need a power supply?

Scarlett Solo gets its power from your computer via the USB connection: there is no need for a separate power supply. However, we do recommend that when using it with a laptop, the laptop should be powered using its AC adaptor, as otherwise the battery will run down faster than when powering the laptop alone.

Does Scarlett have a power supply?

With the official Focusrite 12V 1.2A Power Supply, you can rest assured that your Scarlett audio interface is receiving clean, reliable power directly from the source. The perfect solution for a lost power supply or a handy extra, this adapter is designed for first-, second-, and third-generation 18i8, 8i6, and 6i6 Scarlett models.
