

What is the federal tax credit for EV charging stations?

Any business can apply for a tax credit for up to 30% of the cost of purchasing and installing EV chargers, up to \$30,000. If your business owns multiple locations, you can apply for the credit at each site. Starting January 1, 2023, new qualifications will go into effect that change how the Federal tax credit for EV charging stations works.

How do EV charging stations make money?

You'll make money from the EV chargers themselves, plus anyone who wanders into your business while waiting for their car to charge. There are three main types of EV charging station incentives: tax credits, grants, and rebates. While new incentive programs pop up every few months, here are three of the most important ones to know about.

Where can I get Free EV charging?

There are hundreds of libraries, museums, government offices, nonprofits and private businesses that offer free EV charging. Charging map services such as PlugShare, ChargeFinder or ChargeHub show stations across the country, with a setting for free chargers. Just go to the filters and find the option for free charging.

Are EV charging incentives disappearing?

Many auto manufacturers offer free charging incentives with EVs, typically in partnership with a network like EVgo or Electrify America. Electric vehicles have become more mainstream -- more than one in five new passenger cars sold last year was an EV or plug-in hybrid. But the perks awarded to early adopters are slowly disappearing.

Does Cinemark offer free EV charging?

One company still offering free charging is Cinemark. A representative for the movie theater chain confirmed that 160 free EV charging stations are available at select locations. The representative recommended using apps such as PlugShare to find these chargers, or calling your local theater. 2. Charge for free while checked in at a hotel
