

Where can I find charging stations?

ChargeFinder is available as an app for iOS and Android. Specific city pages provide a good overview of charging stations in a particular city. Download the app from Apple App Store or Google Play. ChargeFinder will eventually also be available as apps in Apple CarPlay, Android Auto, and Android Automotive.

How do I find out if a charging station is nearby?

To find out if a charging station is nearby, use ChargeFinder's station page which shows relevant information like charging speed, outlet type, price, and location. Additionally, the "Food and Shopping Nearby" feature helps you find points of interest near the charging station.

What is open charge map?

Open Charge Map is the world's largest Open Data registry for Electric Vehicle Charging Locations. Browse locations, Add Comments, Photos or Add new locations for others to find.

What is the most common type of charger shown on the map?

The most common type of charger shown on the map is fast chargers that provide 50 kW, which are shown in dark blue on the map. Destination chargers usually provide an output from 3 kW to 22 kW.

What power level does a destination Charger offer?

Destination chargers usually provide an output of 3 kW to 22 kW. The color shades on the map indicate the power level: light orange for 3-7 kW and darkest orange for 22 kW. The most common are fast chargers, shown in dark blue, which provide 50 kW.

How is ChargeFinder updated?

ChargeFinder is continuously updated with new charging stations from various sources. This includes larger charging networks, individual smaller players, and other data sources. The information is supplemented and refined with the help of ambassadors and the growing community.
