

Who is Go Power! Solar?

Go Power! is one of North America's leading suppliers of recreational and business solar solutions. We started as a small Canadian distributor of solar energy products and have grown to provide portable, renewable electricity solutions for RVs and other applications. When you need portable, renewable electricity, you can count on us.

Does go power offer solar & energy solutions?

Go Power is committed to a complete line of mobile solar & energy solutions. A long list of RV manufacturers offer Go Power's "Solar On The Side" program & OEM equipment integration, and they do this because they know that Go Power offers solid value - more than those heavily advertised Amazon brands.

Who is Go Power?

Go Power! is a company that provides mobile power solutions. Now a part of the Dometic family of products, they offer a full range of high-quality solar chargers, inverters, controllers, and power accessories. At Go Power! they enjoy exploring off the grid, and they know their customers do too.

What does Go Power! specialize in?

From our beginnings as a small Canadian distributor of solar energy products, Go Power! has grown to become one of North America's leading suppliers of recreational and business solar solutions. When you need portable, renewable electricity, you can count on us.

What is a go power solar charge controller?

The Go Power! solar charge controller is essential for ensuring your batteries last longer, by protecting them from overcharge. The controller features an easy to read digital display that shows solar current, system battery voltage and battery capacity.
