How many lumens does a Goal Zero light have?

Bright Light Anytime, Anywhere Directional and adjustable LED light, up to 600 lumens. Recharge the internal battery from any USB port, from the sun with a Goal Zero solar panel, or use the built-in hand crank to charge up in an emergency.

How do you charge a goal zero?

Directional and adjustable LED light, up to 600 lumens. Recharge the internal battery from any USB port, from the sun with a Goal Zero solar panel, or use the built-in hand crank to charge up in an emergency. Internal lithium battery boasts 5200 mAh with a USB output, enough power to charge phones, headlamps, tablets, and more.

What is a lighthouse 600?

Packed with unique features, the Lighthouse 600 adapts to light up any situation; perfect for camping, outdoor events, or emergency use. Complete with an internal lithium battery, the Lighthouse even doubles as a power hub for charging phones and small USB devices. Directional and adjustable LED light, up to 600 lumens.

How do I recharge the lighthouse 600?

Recharge the Lighthouse 600 from the sun by connecting a Nomad 10 solar panel to fully charge in as little as 6 hours of sunlight. The Lighthouse 600 can be recharged from a USB source in about 6 hours. When you are really in a pinch, use the hand crank to get 10 minutes of light for every 1 minute of cranking.

How often should I Charge my Lighthouse 600 Lantern?

It is recommended to charge your Lighthouse 600 lantern every 3 months. The blue LED lights indicate the current battery level. Does it matter what direction I turn the hand crank? Nope. You can turn the hand crank in either direction for power. Remember, 1 minute of crank time equals about 10 minutes of light on low.
