

What type of inverter does goodwe offer?

GoodWe really does have the market covered with fit for purpose options ranging from small residential to large commercial inverters, or simple grid-tied to 3-phase hybrid inverters, or even AC-coupled battery inverters. The following are the major inverter series that best fit New Zealand's residential environment:

Who makes goodwe solar inverter & energy storage solutions?

With solar energy advancing and becoming more popular, we are seeing people very eager to explore greater options for their solar power systems. We are happy to announce that ZENis now offering the full range from GoodWe, the world-leading PV inverter and energy storage solutions manufacturer.

What is a goodwe solar inverter?

Solar inverters for a range of applications GoodWe solar inverters can be used in a range of applications including residential and commercial rooftops, industrial and utility scale systems and range in size from 0.7 kW to 250 kW. M+H Power have carefully selected GoodWe as a partner with their Hybrid Range of inverter products.

Which inverter series best fit New Zealand's residential environment?

The following are the major inverter series that best fit New Zealand's residential environment: All GoodWe inverters come with an IP65 rating as standard, meaning you can install them either inverter indoors or outdoors.

What is a goodwe ET series inverter?

The brand new ET Series from GoodWe is a three-phase high voltage energy storage inverter that enables enhanced energy independence and maximises self-consumption through export limit feature and time of use shifts for reduced electric bills.

What is a goodwe DT series inverter?

GoodWe DT Series is a three-phase On-Grid Inverter that adopts cutting-edge technology in photovoltaic fields. The GoodWe series offers higher conversion efficiency and lower energy losses making it one of the premium three-phase inverters in the market.

GoodWe's DNS series is a single-phase on-grid inverter with excellent compact size, comprehensive software and hardware technology. Manufactured for durability and longevity under modern industrial standards, the DNS series ...

MS Series is GoodWe's answer to the residential segments expanding needs. This 5-10kW Single-Phase model with 3 MPPT-s, is a powerful and versatile inverter. It is truly a champion ...

The GoodWe EH Series is a truly battery-ready solar solution with power classes 3.6kW, 5kW and 6kW. The

EH series can be used as a single-phase grid-tied inverter with compatibility to ...

GoodWe solar inverters can be used in a range of applications including residential and commercial rooftops, industrial and utility scale systems and range in size from 0.7 kW to 250 kW. M+H Power have carefully selected GoodWe ...

GoodWe DT Series is a three-phase On-Grid Inverter that adopts cutting-edge technology in photovoltaic fields. The GoodWe series offers higher conversion ...

Background. Over the last decade, GoodWe has gained a reputation as one of the best Chinese inverter manufacturers and is even considered by some in the solar industry to be on par with some well-known ...

Dean Williamson, Country Manager at GoodWe Australia and New Zealand, commented: "GoodWe offers the largest range of inverter products on the market, and the ET ...

The brand new ET Series from GoodWe is a three-phase high voltage energy storage inverter that enables enhanced energy independence and maximises self-consumption through export ...

Rating: The GoodWe SDT(G2) 10.0kW string inverter boasts a power rating of 10 kilowatts (kW), providing ample energy conversion capacity for residential solar installations. Max. DC-Input ...

Inverter and energy storage manufacturer GoodWe has introduced a new iteration of its three-phase ET high voltage hybrid inverter for AU and NZ markets - the ET G2. The ...

GoodWe Solar Inverters and solar inverter products are ideal for home users and commercial wholesale professionals, we offer a complete range of solutions. This website uses cookies. Through these cookies we collect information about ...

The GoodWe EO Series off-grid inverter is the ideal solution for those living in areas without power grids or experiencing frequent power outages. Its robust design guarantees durability even in harsh conditions, while the user-friendly ...

Residential Grid-tied Inverters. C& I Grid-tied Inverters. Utility Products. Residential Energy Storage Products. C& I Energy Storage Products. ... AU& NZ Warranty ... Goodwe service will feedback within 48 hours. NEWSLETTER. ...

In New Zealand, we strongly recommend GoodWe's range of inverters. GoodWe's main advantage is having 3 MPPT's, which allow greater flexibility on how panels can be arranged and distributed on your roof to ...

GoodWe is a world-leading PV inverter brand that offers comprehensive monitoring, providing users with real-time data on solar performance. The GoodWe Inverter also allows for easy battery expansion down the

track, ...

The GoodWe EH Series is a single-phase, on-grid inverter that includes a "Battery Ready" option for users who want to future-proof. By simply purchasing an activation code, the EH can easily be upgraded to a complete ESS solution.

GoodWe offers high-quality single-phase and three-phase solar inverters for home and business solutions, designed for easy operation and maintenance. ... Republic of Monaco Mongolia ...

GoodWe inverters, offering more MPPTs than competitors across various sizes, are a popular choice. Their MS series is the only single-phase inverter with 3 MPPTs in the Australian market. This makes GoodWe MS ideal ...

The GoodWe A-ES Series is a split-phase hybrid inverter designed to increase self-consumption of your generated solar energy. GoodWe A-ES is compatible with high voltage (80-495V) batteries with a power capacity ranging from 5 kW ...

GoodWe is a leading residential and commercial solar inverter manufacturer based in China and one of the major solar inverter suppliers in Australia and NZ. This website uses cookies ...
